BOOK SYNOPSIS

A New York Times Notable Book "This is a young woman's first book, the story of her own life, and both book and life are unforgettable." —New York Times
"Engaging and engrossing, a story of grace as well as cruelty, and a demonstration of [Grealys] own wit and style and class."—Washington Post Book World This powerful memoir is about the premium we put on beauty and on a woman's face in particular. It took Lucy Grealys twenty years of living with a distorted self-image and more than thirty reconstructive procedures before she could come to terms with her appearance after childhood cancer and surgery that left her jaw disfigured. As a young girl, she absorbed the searing pain of peer rejection and the paralyzing fear of never being loved.
